This Balenos Fishing Rod and AFK Fishing Guide will help you learn about the lucrative life skills and its artisan fishing rod. Because of its repairable nature and lovers, Balenos Fishing Rod is the preferred fishing rod for AFK Fishing. During fishing activities, expect demand and price to rise. Balenos Fishing Rod Benefits: No fishing level limit. Use on any fisherman's noobie. Cheap repairs when durability is low. Gives up to 25% AFK Reducing fishing time has up to 100 Max durability Usually easy to purchase on the market (670k current price) Pretty easy to work out in a tool workshop HAPPY AFK Fishing!! Is it worth AFK fish? AFK Fishing is a profitable way to earn AFK income, especially if you have a full inventory of 192 slots. Even with a smaller inventory quest, you can still get a good amount of ancient crystal fragments from the night of AFK Fishing. (By discarding lower-grade fish, you can increase the number of relic fragments for low-calorie symbols.). Relic shards are very valuable because they provide memory fragments used in high level enhancement. As AFK Fish All you need is a boat or beach on a river, lake or ocean. Approach it and press the right mouse button to equip. Don't forget to check out the No Board ships of other adventurers. This prevents the red player from picking you up and transporting or killing you. You can choose which varieties of fish you want to keep. Using the Discard option, will still keep the trash prey that can be exchanged for goodies. You will also keep all the green rare class items like ancient crystal relics shards. Discard Fishing Skills Requirements: Professional: White, Green Artisan: White, Green, Blue Master: White, Green, Blue, Yellow Balenos Fishing Rod Kraft Balenos Fishing Rod is obtained using Craft in Tool Workshop, which is Level 3. There are 3 of them in Heidel and probably all the major cities. Stone spells the brand item can be used on the fishing rod Balenos. This will significantly increase AFK catching time by reducing rod strength consumption by 50%. This \$4 item effectively doubles your fishing time. It also reduces the cost of repairing Balenos Fishing Rod by 33%. Item Brenda Spell Stone Longevity Consumption: -50% (Double your AFK fishing ability.) Repair cost: -33% (saves a couple of thousand silver each repair.) The cost of pearls x1: 400 pearls (\$4) Pearl Cost x6: 2000 pearls (Buy 5 and get one free. Saves 400 pearls) Item Brand Spell Stones will not be removed if you decide to improve or fail. Balenos fishing with branded stone cannot be sold on the market. Mainland High Level Fishing Region: Kamasilvia and Dreigan are both good for AFK Fishing. However, in some places will demonstrate an exhausted amount of fish. The most popular places in Kamasilvia are grana and tooth fairy cabins because they are safe zones, but it also means that they are usually exhausted. Dreigan has safe haven areas for Haraka and the main city. Kama gives a better distance bonus than Dreigan when trading with Valencia. Both Kama and Dreigan have higher than usual rates of decline of ancient relics. Great Ocean Fishing: For the greatest distance bonus, I recommend fishing near the southern Sea of Margoria (knot 1414). With a distance bonus of 146.43%, it gives about the maximum distance maximum allowed 150%. If you are willing to go further in the Central Margoria Sea, you can get a maximum of 150%. However, traveling across the Great Ocean is slow and can be deadly if you are trying to get there by boat, which is not a fast boat of the Great Ocean, like the sailboat Epheria. The Seas of Ross and Margoria have a faster-than-usual AFK fishing time. The fishing pool includes a good record of the fall of the relic. Great ocean water is usually abundant and the distance bonus for trading is the best. However, the travel time and time of the boat

construction discourages many from traveling here. Brisy Sails (Skilled 1 Sailing) helps speed up the journey time of the ocean. Best Fishing Place Conclusion: A few factors go into deciding on a better fishing spot. If you only have 45 inventory slots and can't check back very often, then this is really not the mater where you fish. The jaded fishing spot won't matter because you ended up staying on a small inventory anyway. However, if you have a maximum inventory of 192, you can fish for a very long time until your inventory gets full, and the best place for you will be a plentiful place. Trading skills are also factors in a better fishing spot. If you have a Craftsman 2 trade, then you can get the Valencia City Desert trade posiitive effect that will increase your earnings by 50%. The full load of 192 slots usually gives about 8-16 ancient relic crystal fragments after 7-8 hours. Fishing Setting: 5/5 Fishing Rank (reduces time from initial cast to first bite) No 10 Balenos Fishing Rod No 10 Maple Float T4 AFK Fishing Pets: Premium: Groundhog, Otter (permanently available for 1100 pearls) Limited: Polar Bear, Penguin, Dragon (seasonally available during events, special Etc.) Advanced Fishing Setting: Master 1 Fishing: Extras to see all the seagulls. Epheria Sailing: A repairable boat that can travel through the Ross and Margoria Sea at high speeds Skilled 1 Sailing: Will drastically reduce travel time. No 10 Repairable Rod: Balenos Fishing Rod for AFK AFK Supply of triple floats: For when you find hot spots, or active Margoria fishing 192 inventory slots: Maximum inventory goes a long way in increasing the profits of AFK Fishing. Artisan 2 trade: Allows you to sell fish in Valencia city with a desert positive effect of 50%. Connected Node Network: Disconnected nodes get a 30% value for fish. --gt; Change patch: The Node of Origin where you fish and the node of the sales manager no longer has to be connected to get full price after February 8, 2019 Fish varieties and trade prices Knowing that fish varieties are important for Culinary Recipes. When the fish is dried, the names of the fish lose their coloring, which shows their class. However, they still retain their rarity in cooking and efficiency. Recipes for cooking on database sites require normal Fish or Seafood, which is a fresh green fish class. But you can also replace dried fish by increasing the amount of dried fish or dried seafood stated in the recipe. (Recently they did it so some green class fish don't have this limit. see the details below.) 1 green fresh fish - replacement 2 dried green fish 1 blue fresh fish - 2 green fresh fish - 4 green dried fish 1 dried blue fish - 2 dried green fish Example: 1 dried octopus (blue variety) or 2 dried green seafood Sample organic feed: 1 blue dried fish, or 2 green dried fish Excluded dried fish Can usually be replaced with fresh fish with double amounts of dried fish during cooking. For the following fish, you no longer need to double the amount. (Source: Patch Notes - 13 November 2019) Ancient crystal relics Crystal Shard, Silver Key, Breezy Conch algae and Petal Petal Petals items have a low chance of falling in all fish tables except common only or basket tables. Ancient Relic Crystal Shard - Creates a scroll for farm Fragments of Memory used in the High Class Improvement Silver Key - swapping for a golden key to open the Golden Treasure Chest breezy Conch Algae - Courser Training - Elegance (Dine). Increases the level of training by 1% petal Laila - used to get a fairy or get a raise chance with a Fairy Blessing Bottle with Note - extremely rarely (Kama and Dreigan) There is a chance to get a treasure card when opening a bottle with a note. Click the right treasure map button to get a treasure hunt. Based on the contents of the quest, find out the location of the treasure and dig it up. Give the treasures to Marzana in the Ibellab oasis to receive a sealed chest of gold treasure as a reward. Use the gold key to open the sealed gold treasure chest. Giant fish bone - extremely rare furniture for housing (Kama and Dreighan) Washed-Up Laundry - for the manufacture of the costume Termmian Casual Wear. (Only to find water sources and don't discard selected.) The treatment of the old random is used in the recipe. Fishing Loot (One Man Junk...) you can turn into junk fishing loot for goodies. Is Balenos Fishing Rod the best? Balenos Fishing Rod is often said as the best rod. There are several reasons for this. There are many events BDO that center around fishing and provide special drops. Sometimes these special drops are part of the trash to rob the table, even if the drop point shows a yellow class. It is also the theory underlying the ancient fragments of relics. Some players swear by using Balenos Fishing Rod to catch more of these rare drops. Balenos can also reduce fishing time by 25%, so this increases your chances of getting that rare dip in a shorter time frame. Mediah Fishing Rod and Maple Float remain the choice for active fishing and Balenos Fishing Rod and Maple Float for AFK fishing. Mediah Fishing fishing rod preferred by those with less stock. There are two fishing timers for each cast. Fishing time from the initial toss to the first bite. The first bite when a fish icon appears over your character's head. (The fishing rank can reduce this.) Fishing time from the initial bite to the collection of fish. (Automatic reduction in fishing time reduces this.) The usual time of automatic fishing is 3 minutes. It's without any fishing titles or buffs. There are a few items that you can get in the game, besides Balenos Fishing Rod to reduce fishing time. Auto-Fishing Time means the time it takes after a fish bites (when there is a fish icon over your head) by the time you automatically reel it into your inventory. You can buff up to 65% auto-fishing time reduction, meaning that you can go as low as 63 seconds between when you get a bite and when you automatically collect fish. 72 seconds if you don't use Arehaza Meal. Fishing rank/level fishing rank or level can be increased to a maximum of 5. Fishing rank reduces the time it takes to get the fish on the hook. This reduces the time for the fish to bite. See your Fishing Life Skill Rank by clicking the P key and then the Life Skills button. Fishing HotspotsHotspots give an abnormally high amount of high quality fish. Fishing Life Skill shows hotspots based on its level. Hot spots are fishing spots in the ocean that have fish jumping out of the water and seagulls flying over them. Fishing Rod DurabilityThere is a roll in front of each cast to see if the durability of your fishing rod should go down to one. It's not always one cast No.1 durability. The higher your level of fishing life skills, the less longevity you lose. Master fishermen can fish much longer than novice level Fisher. The use of strength on fishing rods is defined as 90 - (0.5 - fishing level) - % chance to reduce durability when using - to Knowledge (bondenn-2446) and Moonraker (Moonraker-2967) for this information The chance of durability loss: Master 1 Fishing - 64.5% chance of durability will reduce. -- 90 - (0.5 and 51) - 64.5% Guru 1 Fishing - 49.5% chance that longevity will decrease. -- 90 - (0.5 and 81) - 49.5% Table Xp below will help you determine how many quests or fish you need to get your next level of fishing/class. Patch Notes - April 30, 2019 Source In order to facilitate the difference between the life skills required by EXP and obtained by EXP have been adjusted for hunting, training, agriculture and sailing. (However, EXP's life skills as a result of quests will not change.) We decided to make adjustments to the 4 life skills above in order to make it easier to distinguish between life skills levels. So we have reduced the required EXP for sailing and increased the can get EXP for hunting, training and agriculture. We make every effort to preserve the value of every adventurer's effort. Mandatory EXP decreased - Sailing Access EXP increased - Hunting, Training, Agriculture, Sailing, Fishing, Trade With Change received and required amount of EXP, the level of life skills for hunting, training, agriculture and sailing will also increase in proportion to the adjustment. Patch Notes - May 8, 2019: The Source of Living Skills Level has been expanded. While there are adventurers who have reached the Guru level in some life skills, there are also certain life skills where adventurers remain at a relatively lower level. Last week we adjusted the amount of EXP required for each life skills to adjust to the amount of effort, apply all life skills. In addition, in order to provide a target for adventurers who have already reached the top level, we have expanded all levels of life skills to Guru 50. Due to the increased level of life skills, you can now get more benefits from higher levels, and we will also continue to provide various updates to enhance the content of Life Skill. Margoria Faster Fishing Time Margoria has an unusually fast bite time. The downside of fishing here is the travel time to get there. Be sure to use the Epheria boat. If you don't have one, you can travel here using the Griffon and Ferry travel system. Fishing tests from Margoria. 16 seconds before the bite with rank 5 Fishing. 24 seconds before the bite with rank 3 Fishing. Plentiful fishing spots will reduce your fishing time by lowering the time it takes for this initial bite. Example Night AFK Fishing with 192 fishing stocks ... Fishing suits and clothing there are 3 different costumes you can wear to increase fishing rank and Exp fishing. One effective strategy is to wear all three different fishing suits using Tailor Coupon equipment. You can buy a professional form of phisher at the luxury vendor and apply tailor coupon equipment. This will allow you to wear it with No 2 Silver Embroidered Fishing Clothing and a Splat Suit Helmet. With all three costumes, you will have No.4 Fishing rank without food/potion lovers. Fishing Craftsmanship clothes can also be worn, but you probably want to wait for these until you can get a high level of fishing life. There are other accessories craftsmanship, but the garment is called Loggia/Cryo/Manos Fishing Clothing. Learn more about Fishing Mastery and Gear. The improvement reduces the time of automatic fishing and increases maximum durability. Each level of increase gives 5 euros of maximum durability. Balenos Fishing Rod is a very tough rise after No.7. After No.7, it is possible for Fishing Rod downgrade to increased failure. In other words, your no 7 fishing rod has a chance to drop to 6 pounds on a failure boost. Most Force Enhance players are between 8 and 10 euros. The cost of the Balenos Fishing Rod Force-Enhancement is about 78 million silver for the 355 Black Stone (weapon). There will also be additional costs for additional Balenos Births for maximum strength repairs. 78 million based on Black Stone (weapon) cost 220K each. Balenos Rod cost currently 670K at the time of writing. Each rod will repair 10 Max durability. To boost the odds, consider the No 0 Balenos Fishing Rod about the same boost chance as the No.7 weapon.
